WARMER WEATHER COMING

Many Cold Records Made in the South-Good Prospect for Easter

Washington, April 10 .- A warming up wave developing in the interior was being wafted from the mountains last night, which the weather experts say will spread over the eastern and southern states today. The belated wintry blasts which gripped

the Atlantic coast from Florida to the northern border yesterday and promised disaster to the plans of the Easter paraders are reported on the retreat and the forecasters last night predicted fair and warmer weather for Sunday and Monday.

Winter's belated touch enveloping the entire East set new records yesterday at official thermometers. In New Orleans straw hats and spring finery were replaced with winterovercoats. Throughout the south Atlantic and gulf states heavy damage to fruits and early crops was feared. A 30-degree drop in a few hours was recorded at Mobile. Snow flurries were recorded as far south as Greenville, S. C., breaking the April records of several years. Fruit trees in blossom in the Norfolk tidewater sec tion were caught in the nipping frosts. April snow in Richmond was recorded for the first time since the Spanslh war. The weather bureau

NOW'S THE TIME

of the Rocky mountains.

predicted heavy frosts as far south

as northern Florida last night, and

To guard that cough or cold. Don't wait until it is too late before taking something. The best thing we know of is our cough syrup or Phospho-Quinine tablets. They check a common cold before it leads to something more serious and often times save a good sized doctors bill. D. A. Ward, druggist, Main St.
